

QRP Hours contest 2019

Saturday the 6th of April 2019. Time: 1000-1059 UTC SSB: 1100-1159 UTC

Band: 80m only – CW/PSK/RTTY see sub-bands for each mode in the rules on the club website

After our successful contest in 2018 we invite you to join in this year's contest in April. We will hope for good radio conditions and hopefully we will have a few portable stations joining in again.

Logs

The following information is essential for a log submission:

Time UTC	Mode	Callsign worked	Number sent	Number received
----------	------	-----------------	-------------	-----------------

Contacts should be listed in the order in which they happened. The number sent (by you) is listed before the number received (by you). Please take care with the data columns, they are all required and they need to be in the order illustrated above.

You do not need to include signal reports either on air or in your log, but you are welcome to include signal reports in your contacts. Eg you give someone 579001 or just 001 but your contest log will show just 001.

The time should be recorded in standard logging time: UTC.

Logs can be uploaded at <https://contester.azurewebsites.net/> where an automated

message will acknowledge logs. At the completion of the log submission time, results will be available.

Paper logs, can be passed to vk4sn at wia dot org dot au if needed.

File Format: can be the text file output by VKCL (using the QRP contest option) or can be a spreadsheet from Excel or similar program. It can also be a CSV file with the above data columns separated by a comma. I use Excel to validate the logs.

Thanks

Alan
